

Task 2 - Create Master Block using Departments Table

Objective

To create a Master Data Block based on the **DEPARTMENTS** table in Oracle Forms and display department information.

Description

A Master Block was created using the Data Block Wizard in Oracle Forms Builder. The **DEPARTMENTS** table was selected as the data source, and the required columns were included in the block. A canvas and layout were generated automatically to display department details.

Steps Performed

1. Opened Oracle Forms Builder.
2. Started the Data Block Wizard.
3. Selected the **DEPARTMENTS** table.
4. Chose the required columns:
 - Department_ID
 - Department_Name
 - Manager_ID
 - Location_ID
5. Generated the data block.
6. Created the layout using the Layout Wizard.
7. Saved, compiled, and executed the form.

Result

A Master Block was successfully created using the **DEPARTMENTS** table, allowing department information to be viewed and managed through the form.

Concepts Used

- Oracle Forms Builder
- Data Block Wizard
- Layout Wizard
- Master Block Creation
- HR Schema (Departments Table)

```
SQL> CREATE TABLE departments (
2     department_id NUMBER PRIMARY KEY,
3     department_name VARCHAR2(50),
4     manager_id NUMBER,
5     location_id NUMBER
6 );
```

Table created.

```
SQL> INSERT INTO departments VALUES (10,'HR',101,1000);
```

1 row created.

```
SQL> INSERT INTO departments VALUES (20,'IT',102,1100);
```

1 row created.

```
SQL> INSERT INTO departments VALUES (30,'Finance',103,1200);
```

1 row created.

```
SQL> COMMIT;
```

Commit complete.

```
SQL> SELECT * FROM departments;
```

DEPARTMENT_ID	DEPARTMENT_NAME	MANAGER_ID
10	HR	101
20	IT	102
30	Finance	103
